Forensic Science International

Subject index

Volume 89 (1997)

Abortion; Camphor ingestion, Intoxication, Toxicology **89**, 137

ACD–CPR; Biomechanical aspects, Complications, Forensic aspects, Review **89**, 175

Adenosine-5-diphosphate; Platelet aggregation, Postmortem, Aggregometry, Epinephrine **89**, 47

Aggregometry; Platelet aggregation, Postmortem, Adenosine-5-diphosphate, Epinephrine **89**, 47

Alumina; Apomorphine, Dopamine agonises, HPLC-ECD, Parkinson's disease **89**, 81

Amphetamine; Enantiomers, Metamphetamine, Ephedrine, Capillary Electrophoresis, Urine, Hair, Analysis **89**, 33

Amphetamines in hair; Ecstasy, Ecstasy abuse history (self reported), Hair analysis, 3,4-Methylenedioxyamphetamine derivatives in hair **89**, 111

Analysis; Enantiomers, Amphetamine, Metamphetamine, Ephedrine, Capillary Electrophoresis, Urine, Hair **89**, 33

Animal scavenging; Postmortem artefact, Teeth marks, Dog bites **89**, 57

Apomorphine; Alumina, Dopamine agonises, HPLC-ECD, Parkinson's disease **89**, 81

Automation; STR, Interpretation, Expert system **89**, 185

Autopsy; Sudden death, Heart, Sarcoidosis, Diagnosis **89**, 145

Autopsy case; Digoxin intoxication, Postmortem digoxin concentrations, Endocardial fibroelastosis, Children **89**, 211

Bevelling; Forensic anthropology, Bone, Gunshot wounds, Exit holes **89**, 93

Biomechanical aspects; ACD–CPR, Complications, Forensic aspects, Review **89**, 175

Bone; Forensic anthropology, Gunshot wounds, Exit holes, Bevelling **89**, 93

Bone alterations; Skeletal lesions, Bone defects **89**, 155

Bone defects; Skeletal lesions, Bone alterations **89**, 155

Borderline personality disorder; Self-inflicted injuries, Overt/non-overt lesions, Discrimination **89**, 203

Bridging veins; Subdural bleeding, Head injury, Postmortem X-ray **89**, 103

Camphor ingestion; Intoxication, Abortion, Toxicology **89**, 137

Capillary Electrophoresis; Enantiomers, Amphetamine, Metamphetamine, Ephedrine, Urine, Hair, Analysis **89**, 33

Cartridge matching; Firing pin indintation profiling, Surface profile measurement, Correlation, Laser raster microscope **89**, 1

Caucasoid; Human tooth traits, Forensic science, Mongoloid, Logistic regression **89**, 65

Children; Digoxin intoxication, Postmortem digoxin concentrations, Endocardial fibroelastosis, Autopsy case **89**, 211

Chronic Alcohol Abuse; Methanol, Methanol Elimination, Ethanol **89**, 129

Cluster analysis; Counterfeit coins, X-ray fluorescence, Microstructures **89**, 21

Complications; ACD–CPR, Biomechanical aspects, Forensic aspects, Review **89**, 175

Correlation; Firing pin indintation profiling, Surface profile measurement, Cartridge matching, Laser raster microscope **89**, 1

Counterfeit coins; X-ray fluorescence, Cluster analysis, Microstructures **89**, 21

D1S80 locus; PCR-RFLP, Flanking region, G-T transversion **89**, 75

D5S43; DNA, MS8, Three-fragment phenotype, Polish population, The Upper Silesia **89**, 199

Delinquency; Prison, Suicide, Prevention, Forensic psychiatry, Epidemiology **89**, 167

Diagnosis; Sudden death, Heart, Sarcoidosis, Autopsy **89**, 145

Digoxin intoxication; Postmortem digoxin concentrations, Endocardial fibroelastosis, Children, Autopsy case **89**, 211

Discrimination; Self-inflicted injuries, Overt/non-overt lesions, Borderline personality disorder **89**, 203

DNA; D5S43, MS8, Three-fragment phenotype, Polish population, The Upper Silesia **89**, 199

DNA content; Strangulation marks, Hanging, Vitality, Water content, Histology **89**, 15

Dog bites; Animal scavenging, Postmortem artefact, Teeth marks **89**, 57

Dopamine agonises; Apomorphine, Alumina, HPLC-ECD, Parkinson's disease **89**, 81

Ecstasy; Amphetamines in hair, Ecstasy abuse history (self reported), Hair analysis, 3,4-Methylenedioxyamphetamine derivatives in hair **89**, 111

Ecstasy abuse history (self reported); Amphetamines in hair, Ecstasy, Hair analysis, 3,4-Methylenedioxyamphetamine derivatives in hair **89**, 111

Enantiomers; Amphetamine, Metamphetamine, Ephedrine, Capillary Electrophoresis, Urine, Hair, Analysis **89**, 33

Endocardial fibroelastosis; Digoxin intoxication, Postmortem digoxin concentrations, Children, Autopsy case **89**, 211

Ephedrine; Enantiomers, Amphetamine, Metamphetamine, Capillary Electrophoresis, Urine, Hair, Analysis **89**, 33

Epidemiology; Prison, Suicide, Prevention, Delinquency, Forensic psychiatry **89**, 167

Epinephrine; Platelet aggregation, Postmortem, Aggregometry, Adenosine-5-diphosphate **89**, 47

Ethanol; Methanol, Methanol Elimination, Chronic Alcohol Abuse **89**, 129

Exit holes; Forensic anthropology, Bone, Gunshot wounds, Bevelling **89**, 93

Expert system; STR, Interpretation, Automation **89**, 185

Firing pin indintation profiling; Surface profile measurement, Correlation, Cartridge matching, Laser raster microscope **89**, 1

Flanking region; D1S80 locus, PCR-RFLP, G-T transversion **89**, 75

Forensic anthropology; Bone, Gunshot wounds, Exit holes, Bevelling **89**, 93

Forensic aspects; ACD–CPR, Biomechanical aspects, Complications, Review **89**, 175

Forensic psychiatry; Prison, Suicide, Prevention, Delinquency, Epidemiology **89**, 167

Forensic science; Human tooth traits, Caucasoid, Mongoloid, Logistic regression **89**, 65

Gunshot wounds; Forensic anthropology, Bone, Exit holes, Bevelling **89**, 93

G-T transversion; D1S80 locus, PCR-RFLP, Flanking region **89**, 75

Hair; Enantiomers, Amphetamine, Metamphetamine, Ephedrine, Capillary Electrophoresis, Urine, Analysis **89**, 33

Hair analysis, 3,4-Methylenedioxyamphetamine derivatives in hair; Amphetamines in hair, Ecstasy, Ecstasy abuse history (self reported) **89**, 111

Hanging; Strangulation marks, Vitality, DNA content, Water content, Histology **89**, 15

Head injury; Subdural bleeding, Bridging veins, Postmortem X-ray **89**, 103

Heart; Sudden death, Sarcoidosis, Diagnosis, Autopsy **89**, 145

Histology; Strangulation marks, Hanging, Vitality, DNA content, Water content **89**, 15

HPLC-ECD; Apomorphine, Alumina, Dopamine agonises, Parkinson's disease **89**, 81

Human tooth traits; Forensic science, Caucasoid, Mongoloid, Logistic regression **89**, 65

Interpretation; STR, Expert system, Automation **89**, 185

Intoxication; Camphor ingestion, Abortion, Toxicology **89**, 137

Intoxication; Propafenone, Suicide **89**, 27

Laser raster microscope; Firing pin indintation profiling, Surface profile measurement, Correlation, Cartridge matching **89**, 1

Logistic regression; Human tooth traits, Forensic science, Caucasoid, Mongoloid **89**, 65

Metamphetamine; Enantiomers, Amphetamine, Ephedrine, Capillary Electrophoresis, Urine, Hair, Analysis **89**, 33

Methanol; Methanol Elimination, Ethanol, Chronic Alcohol Abuse **89**, 129

Methanol Elimination; Methanol, Ethanol, Chronic Alcohol Abuse **89**, 129

Microstructures; Counterfeit coins, X-ray fluorescence, Cluster analysis **89**, 21

Mongoloid; Human tooth traits, Forensic science, Caucasoid, Logistic regression **89**, 65

MS8; DNA, D5S43, Three-fragment phenotype, Polish population, The Upper Silesia **89**, 199

Overt/non-overt lesions; Self-inflicted injuries, Borderline personality disorder, Discrimination **89**, 203

Parkinson's disease; Apomorphine, Alumina, Dopamine agonises, HPLC-ECD **89**, 81

PCR-RFLP; D1S80 locus, Flanking region, G-T transversion **89**, 75

Platelet aggregation; Postmortem, Aggregometry, Adenosine-5-diphosphate, Epinephrine **89**, 47

Polish population; DNA, D5S43, MS8, Three-fragment phenotype, The Upper Silesia **89**, 199

Postmortem; Platelet aggregation, Aggregometry, Adenosine-5-diphosphate, Epinephrine **89**, 47

Postmortem artefact; Animal scavenging, Teeth marks, Dog bites **89**, 57

Postmortem digoxin concentrations; Digoxin intoxication, Endocardial fibroelastosis, Children, Autopsy case **89**, 211

Postmortem X-ray; Subdural bleeding, Head injury, Bridging veins **89**, 103

Prevention; Prison, Suicide, Delinquency, Forensic psychiatry, Epidemiology **89**, 167

Prison; Suicide, Prevention, Delinquency, Forensic psychiatry, Epidemiology **89**, 167

Propafenone; Intoxication, Suicide **89**, 27

Review; ACD–CPR, Biomechanical aspects, Complications, Forensic aspects **89**, 175

Sarcoidosis; Sudden death, Heart, Diagnosis, Autopsy **89**, 145

Self-inflicted injuries; Overt/non-overt lesions, Borderline personality disorder, Discrimination **89**, 203

Skeletal lesions; Bone alterations, Bone defects **89**, 155

STR; Interpretation, Expert system, Automation **89**, 185

Strangulation marks; Hanging, Vitality, DNA content, Water content, Histology **89**, 15

Subdural bleeding; Head injury, Bridging veins, Postmortem X-ray **89**, 103

Sudden death; Heart, Sarcoidosis, Diagnosis, Autopsy **89**, 145

Suicide; Prison, Prevention, Delinquency, Forensic psychiatry, Epidemiology **89**, 167

Suicide; Propafenone, Intoxication **89**, 27

Surface profile measurement; Firing pin indintation profiling, Correlation, Cartridge matching, Laser raster microscope **89**, 1

Teeth marks; Animal scavenging, Postmortem artefact, Dog bites **89**, 57

The Upper Silesia; DNA, D5S43, MS8, Three-fragment phenotype, Polish population **89**, 199

Three-fragment phenotype; DNA, D5S43, MS8, Polish population, The Upper Silesia **89**, 199

Toxicology; Camphor ingestion, Intoxication, Abortion **89**, 137

Urine; Enantiomers, Amphetamine, Metamphetamine, Ephedrine, Capillary Electrophoresis, Hair, Analysis **89**, 33

Vitality; Strangulation marks, Hanging, DNA content, Water content, Histology **89**, 15

Water content; Strangulation marks, Hanging, Vitality, DNA content, Histology **89**, 15

X-ray fluorescence; Counterfeit coins, Cluster analysis, Microstructures **89**, 21
